# HEALTH & SAFETY GUIDELINES

As the YMCA continues to operate day camp programs, it is important for us to remember that we all have a responsibility for the public good. As such, following guidelines from the CDC and state and local officials, we have created a new experience for families that we will follow until we receive guidance that we can move back to more normal protocols. Everything we are doing is for the health and safety of you, your child and our staff. We appreciate your support. Both youth and staff are required to follow these guidelines in order to return to the YMCA day camp:

Arrival & Departure	Staff Requirements	Program Guidelines
<ul style="list-style-type: none"><li>• In order to limit exposure, the person responsible for drop-off and pick-up will not be able to enter the program space. Youth may be dropped-off and picked-up in the designated area. Please speak with your program director for additional details.</li><li>• By dropping off your child, you are recognizing The Granite YMCA's COVID-19 policies and procedures. Please do not drop your child off if you or your child answers "yes" to any of our <a href="#">health screening questions</a>.</li></ul>	<ul style="list-style-type: none"><li>• All staff will screen themselves daily and make sure they are abiding by the Y's COVID-19 policies.</li><li>• Staff will be assigned to groups to limit mixing.</li><li>• Any staff who are feeling unwell must stay home.</li><li>• Staff will report any symptoms of COVID-19 or close contact to a person with COVID-19 to their supervisor.</li><li>• Regardless of vaccination status, staff that test positive for COVID must stay home for at least 5 days (day 1 is the day after testing). If staff have no symptoms or symptoms are resolving after 5 days, they may return to camp and must wear a mask until 10 days have passed since their positive test. If after 5 days they still have a fever or other symptoms such as persistent coughing, sneezing or runny nose, vomiting, or diarrhea, staff must stay home until symptoms resolve for a full 24 hours.</li></ul>	<ul style="list-style-type: none"><li>• Programming will be based outside as much as possible.</li><li>• The Y will maintain, at a minimum, regularly mandated cleaning and hand washing protocols.</li><li>• If you or your child are not feeling well, particularly if you have an ongoing cough or fever, please stay home. Situation depending, youth may not return to program after falling ill without a doctor's note or a negative test.</li><li>• <b>Testing Positive:</b> Regardless of vaccination status, youth that test positive for COVID must stay home for at least 5 days (day 1 is the day after testing). If youth have no symptoms or symptoms are resolving after 5 days, they may return to camp and must wear a mask until 10 days have passed since their positive test. If after 5 days they still have a fever or other symptoms such as persistent coughing, sneezing or runny nose, vomiting, or diarrhea, youth must stay home until symptoms resolve for a full 24 hours.</li><li>• <b>Household Exposure:</b><ul style="list-style-type: none"><li>• <b>Vaccinated Youth:</b> Youth that are up to date on vaccination with a household exposure will need to remain out of camp for 5 days and must present a negative COVID test after the 5th day in order to return.</li><li>• <b>Unvaccinated Youth:</b> Youth that are unvaccinated with a household exposure will need to remain out of camp for 10 days and must present a negative test in order to return.</li></ul></li></ul>

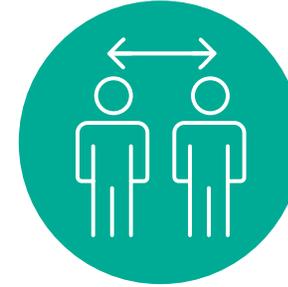

# WHAT WE CAN ALL DO

## Stay Home if You're Sick

If you or your child are not feeling well, particularly if you have an ongoing cough or fever, please stay home.

## Keep Your Distance

Please respect all signs regarding social distancing. Be sure to social distance from others wherever possible.

## Show Compassion

Use our core values of caring and respect. Treat each other with kindness as we navigate our new circumstances.

## Keep Clean

We have increased the cleaning with high touch points being sanitized frequently, increased hand washing stations, and are encouraging "touch-free" environments when possible.
